Math Placement Test Interpretation

If you feel your placement is not a result of your true ability, students may retest for MATH only. There is a test fee of $30 for each re-test.

Please contact Carrie Parworth in Enrollment Services for information on re-testing.

NOTES:
A) MAT 091 is a non-degree course.
B) A grade of C or better in MAT 108 or MAT 110 satisfies the Associate Degree core requirement. Placing into a 200-level Math course or receiving a grade of C or better in MAT 124 exempts you from the Associate Degree core requirement.
C) MAT 110 is suggested for majors requiring advanced math (science & business); MAT 108 is suggested for most social science, humanities and education majors. MAT 124 is suggested for majors requiring a calculus sequence, such as engineering, actuarial science, or math. MAT 124 is equivalent to MAT 110 and MAT 113.
D) Many of the 200-level mathematics courses are needed by specific majors like mathematics, engineering, business, and pharmacy. Please talk to your advisor about appropriate classes for your major.
