**Noon • C101 • Marijuana and its Effect on the College Brain**
Dr. Nathan Glassman is the principal partner at Glassman Neuropsychology Associates in West Allis and has many years of experience working in neuropsychological and forensic evaluations.

---

**March**

**Theatre Production • A Vampire Story, by Moira Buffini**
Set in an English town, two young women on the run could be sisters, mother and daughter, or the victims of something much more sinister.
Performances are March 10-12 at 7:30 and March 13 at 2:00 pm. $12 adults, $10 students and seniors, UW-Waukesha students FREE. For more information and to purchase tickets, please call the box office at 262-521-5212.

**Fine Arts Gallery • Beginning March 14**
Waukesha West High School Art Faculty Recent Works by Paul Moran. • Monday, March 14 through Friday, April 22
Gallery Hours: Monday-Thursday 12:00-1:00 pm & Friday 11:00-1:00 pm

**Noon • C101 • Grading Life In and Around Lake Michigan: How Well Are We (and it) Doing?**
Dr. Harvey Bootsma is a member of the faculty at the UW-Milwaukee School of Freshwater Sciences. He conducts basic and applied research on the limnology of large lakes. His specific interests include nutrient dynamics, algal ecology, and ecosystem response to land use and climate change.

**Noon • C101 • Art and Science: Science and Art**
Kevin Lee, Associate Professor of Biological Sciences and Barbara Reinhart, Professor of Art, will discuss the separation of the fields of art and science in education and in practice is neither necessary nor desirable. Professors Lee and Reinhart will discuss some of the many ways they overlap, intersect and how we all benefit from this.

---

**April**

---

**May**

**Noon • C101 • Pepper Adams: Insights and Influences**
Pepper Adams may not be a household name, but his status as perhaps the pre-eminent jazz baritone saxophonist of the mid-to-late twentieth century, as well as his strong influence on many modern baritone saxophonists, makes him one of the most revered jazz musicians of all time. His large, raw, biting sound and intimidating technique were truly innovative on the baritone saxophone, in part legitimizing this often overlooked member of the saxophone family. In this lecture, some aspects of his life and legacy will be discussed, but the main focus will be a presentation of some of the salient themes and motifs of his musical vocabulary, as well as performance of some of his music by the Mike Pauers Quartet.

**7:30 pm • Lunt Fontanne Theatre • Concert**
Brass Extravaganza with the Windy Hill Brass and guests the New Horizons Brass
$5 admission • Tickets will be available in the box office of the Lunt Fontanne Theater up to one hour prior to the start of the concert. For additional information about concerts, contact Dr. Craig W. Hurst (craig.hurst@uwc.edu).
