LEARN HOW TO DRAW WHAT YOU SEE

SUPPLY LIST

• Graphite Pencils – Student should have at least three different degrees of blackness such as a 2H, HB and 2B. This will allow student to achieve many degrees of values.
• Pencil sharpener that has an attachment to catch the shavings.
• Kneaded eraser
• Pink Pearl eraser or any other eraser that is not abrasive.
• Blending stump – Sometimes called a tortillon.
• Tracing Paper
• Sanding block (this is used to sharpen the pencil to a very fine point)
• 1 stick of soft charcoal – They come in the same form as white chalk that we used in school.
• Conte Crayon - I like to use Sanguine (light brown color). They come in a package of two and can be found at Michaels or any art store.
• Paper – Pad of two-ply Bristol drawing paper or any smooth drawing paper will work fine.
• Additional paper for practice and to cover the drawing to avoid smudging.
• Drawing Board – Suggestions: A drawing board with clips to hold the paper, a piece of Masonite or any other type of stiff support.
• Blue masking tape (to hold the paper so it will not move around. The blue tape is not as sticky as regular masking tape and will not tear the paper when taken off)
• Notebook for taking notes
