Biology Lab Assistant

Biology Department

Biology Lab Assistant: The biology lab assistant will be responsible for assisting the lab manager with washing glassware, caring for the live animals, watering plants in the greenhouse, cleaning lab spaces, organizing the prep areas, and prepping laboratory activities for the biology courses. Interested individuals should have some interest in the biological sciences and have completed at least one biology course at UW-Waukesha. This is a federal work study position.

Position Scope: Position starts Fall semester 2016, or in Summer 2016 if the individual is able to start. Hours to be determined by the student and their manager, between the hours of 9-5, Monday- Friday.

Maximum hours will be set based upon financial aid award for federal work study. Pay is $8.50/ hr.
